SPA MENU CASTELLO «SPA & BEAUTY»

The SPA team is looking forward to welcoming you and spoiling you at the Castello «SPA & Beauty». In addition to the listed offers, staff at SPA Réception is happy to give you individual advice and draw up a tailor-made treatment programme for you. You can call SPA Réception on 769 or use the external number +41 (0)91 785 86 85.

To ensure that you will enjoy your stay at Castello «SPA & Beauty», please note the following points:

Take your time

In order for your body and mind to be properly prepared, we recommend that you arrive at Castello «SPA & Beauty» in your bathrobe ten minutes before the start of your treatment.

External guests

You are welcome to get changed at Castello «SPA & Beauty» – we are happy to provide bathrobe and slippers.

Care products to use at home

We have various products for sale so you can spoil yourself at home.

Gift vouchers

Surprise your loved ones with a Castello «SPA & Beauty» gift voucher – the SPA team is happy to advise you.

Cancellations

Services that are cancelled less than 24 hours beforehand will be charged at 50% of the original fee; the full fee is charged in the case of nonattendance.

Prices

Prices are in Swiss Francs incl. VAT. We reserve the right to change them.

VINOTHERAPY

The powerful effect of the grape has been known since ancient times. Hippocrates, known as the «father of medicine» (460 to 377 BC), already used wine as therapy for his patients. However, the roots of today's therapy lie in France, in the era of the Sun King Louis XIV. Baths with traces of wine sediment were also discovered in the 17th century. These wine marc baths were used in the treatment of sciatica, arthritis and similar ailments. In 1991, another Frenchman succeeded in providing scientific proof of the effects of this therapy: Serge Renaud discovered that the polyphenols contained in grapeseed, in particular procyanidine, had an extremely beneficial effect on health - in terms of cell aging, cell regeneration and protection from free radicals.

The secret of successful therapy lies in the correct extraction and use of grapeseed oil. Only cold-pressed grapeseed oil retains essential agents such as polyphenols, vitamins, lecithin and precious fatty acids.

THE CASTELLO DEL SOLE VINOAQUA-THERAPY

With a team of five specialists, each from a different professional sphere, the Castello del Sole has fashioned its own product and treatment line: VinoAqua-Therapy. The therapy is based on grapeseed, grapeskin and the leaves of the grape vine (100% biological). Around 80 to 85% of these natural ingredients are harvested from the hotel's own Terreni alla Maggia vineyard. To achieve optimum blend and quality, the remaining 15 to 20% of grapeseeds are acquired from the vineyard of Daniel Huber from Malcantone.

Our VinoAqua-Therapy (body wraps, peeling, baths, body treatments) makes exclusive use of this precious cold-pressed grapeseed oil. In addition to the already mentioned positive properties, grapeseed oil has an exceptionally beneficial effect on the skin and its structure. The essential agents combat the ongoing process of cell aging and also stimulate and revitalize the skin, thus keeping it healthy.

The natural raw materials are introduced into all products using the latest cosmetic formulation technology – to ensure that the full beneficial effects are released.

VINEASOLE-COSMETICA

VineaSole-Cosmetica laboratories have carried out intensive research into the factors that influence the vitality of the skin. The findings have led to the creation of a range of skincare products based on agents from vines in the Castello del Sole and Terreni alla Maggia vineyards. A range which successfully nurtures and revitalizes the skin.

The active ingredients of the facere range come from the hotel's own grapeseed oil and grapeseed (peeling) as well as from grape leaf extracts. Using an exclusive patented procedure, a colloid is created from grapeseed oil, the effects of which are far more intense than usual. An innovation in the field of anti-aging cosmetics. The blend of these highly-effective colloidal agents, which are effortlessly absorbed by the skin thanks to their bio-availability, creates a lasting effect. VineaSole-Cosmetica moisturizes and revitalizes, counteracts skin aging and smoothes wrinkles, giving the skin a younger, fresher appearance.
